<div>User</div> <div></div> <div>Joined: Thu Aug 04, 2005 1:12 am Location: Australia</div>	<p>Hello.</p> <p>Instead of selling other peoples droppers or paying for one I'm making a dropper that will be free to use when I'm finished. I'm posting it here now so people can contribute if they would like, I'm not very far into making it. Get some community spirit happening back around here (hahahahahaha).</p> <p>It's full stack modern JS. If you wanna contribute lmk and I'll let you know some tasks that would be helpful.</p> <p>Repo: https://github.com/notvita/web-item-manager</p>
